Support for King Island Community Radio Application for Widening Broadcasting Opportunities

The King Island Council is pleased to support King Island Community Radio (KICR) in their application for assistance in extending their services to the King Island community.

For the past 5 years, KICR has recorded our monthly Ordinary Council meetings for broadcast. We have further asked KICR to explore the options of live streaming our meetings, which can then also be broadcast on radio. KICR has also played a crucial role since 2016, in broadcasting our messages and news to a wider public.

KICR also provides production, sound, vision, and equipment for numerous events organised by our Council, as well as for many other community organisations and events.

KICR also play an important role in keeping our community informed through emergency radio. King Island is a small, isolated Island community and, together with the ABC, their work in this space is vital in supporting our community.

Council understands that KICR requires additional essential equipment, to ensure their ability to broadcast under the most extreme circumstances. We are committed to working with KICR and support their funding application for these projects.

Please don't hesitate to contact me if you require any further information.

Yours sincerely

Marty Smyth
Deputy General Manager
